

Be Connected

Enhance the customer experience, increase customer loyalty and improve service with integrated tools and applications from LRS.

Paging Systems

PAGERS

Elevate the guest experience with the durable sleek and reliable LRS Pager, it is the only all-in-one pager or mobile phone notification system.

This intelligent device uniquely acknowledges and confirms when a page is delivered. It's adaptable too, you have the power to program it yourself, set pager numbers and integrate it with crucial operational solutions.

Light up your creativity with multi-coloured LED lights. Add your branding and you can truly make this pager your own.

On Cue

MANAGE WAITLISTS

A complete waitlist management solution that offers the flexibility customers want with notification choices via Guest Pager or text to Mobile.

It's simplicity is what restaurants need to notify staff where they are needed.

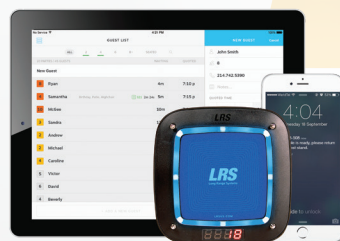

Table Tracker

DELIVER FOOD FASTER

A table location system that identifies where guests are sitting so you can deliver food faster.

Table Tracker not only helps restaurants deliver a better guest experience, but enables an efficient operation through analytics and reporting functions.

Push For Service

Push-button notification systems allow customers to alert staff and request immediate service.

Two-Way Radios

Portable and wireless Radio Kits help staff members to communicate directly on-site. Bluetooth accessories are also available.

Boost Power Bank

A Smart Portable Charging Solution

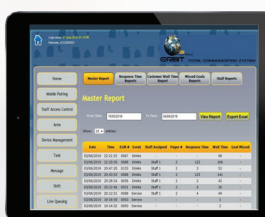

A new standard to hit the hospitality industry, these portable mobile phone chargers are designed exclusively for the service sectors.

Boost charging solution allows the venue to offer a highly efficient charging solution to their customers.

Staff Paging

LRS Pagers keep your staff aware and connected with each other and guests, ensuring better all-round service.

Gaming Room Paging

LRS Gaming Pagers help increase revenue and efficiency by allowing staff members to respond quicker and escalating unanswered calls to upper management.
